## Main measures for the 「Challenge 2021」 in FY2022

｜ARTNATURE 「Challenge」 Plan Key Challenge Measures to Achieve｜

## ARTNATURE "CHALLENGE" Plan: Progress Made by Key Departments

## Men's Department

## Mostly achieved the targets for orders and sales. The department continues to make efforts to increase the number of loyal ARTNATURE fans.

## Summary of the first half of the fiscal year ending March 31, 2022

- While media exposure was increased compared to the previous term, the renewed efforts failed to produce a strong response* Nevertheless, new commercials for wigs aired along with the commercials for hair addition led to the acquisition of a certain number of wig customers.
- A premium hair addition trial service was introduced in addition to the standard hair addition trial service.

A favorable response received from customers who genuinely want to try hair addition led to a higher contract rate.

- An AI-powered call answering system was introduced on a trial basis to streamline contact center operation.
- Throughout the first half, the majority of major cities were placed under a state of emergency. Despite this, the number of customers who visited stores remained at the same level as the previous term.
- We quickly responded to demand for online training brought on by the coronavirus restrictions and established a new training structure.
- Reduced production at plants in the previous term caused

Others delivery delay, which was carried forward and inevitably increased sales in the first quarter.
*The number of new inquiries from customers.

(Characteristics of new merchandise launched in September)
MRP WONDER: The new WONDER Hair Attach Technology (patent pending) successfully reduced the time to attach each hair. It is now possible to attach 1,000 strands of hair per hour. It is also possible to attach hair on short gray hair, allowing those who are concerned about the top and parting areas to add hair quickly.
